

GOLD! GOLD! GOLD!

Imagine a small portable machine that will plate almost any metal object with 24 carat hard gold, producing a beautiful rich genuine gold finish which your customers will love, while earning you an excellent income.

Gold, possessions of this attractive bright yellow metal appeals to almost every Australia adult.

If you are looking for a secure business opportunity with an excellent on-going income, look no further.

THIS ... IS ... IT!

Until recent advances in chemical and application technology were made, gold plating was an expensive, inconvenient and a time-consuming process. Items to be plated were disassembled and sent out to a facility where the job was completed. Then the item was sent back to be reassembled. Now, by using advanced electrochemistry, most metals and any other surfaces can be plated with 24 carat gold. The Gold Club system is a fully portable machine which will apply 24 carat gold without dismantling or removing

the object, by a non-immersion process known as brush-plating.

Car badges, bathroom taps and fittings, jewellery (the list is endless) can all be transformed with rich 24 carat hard gold enriched and free of cyanide, cobalt and arsenic, to provide a hard and durable finish. With a small investment, you can get a complete system of The Gold Club, with sufficient gold to earn approximately \$8,000 to \$12,000 in retail work. Further supplies can be purchased at very competitive prices.

Operation of our system is very easy to learn and most operators become proficient within 2-3 hours.

By use of advanced electrochemistry, most metals and many other surfaces can be plated with 24 carat gold. The Gold Club fully portable Gold Plating system will apply 24 carat gold without dismantling or removal of the object, by a unique, non-immersion process called Brush Plating.

IT'S SO EASY EVEN YOU CAN DO IT!!

The system is supplied with a comprehensive instructional manual and 'How to Build Your Business Manual'. Our machine is small enough to fit into the boot of the smallest car.

This low-cost, high return opportunity can be operated as a stand alone business or an add-on to an existing business. Opportunities exist throughout Australia for entrepreneurs to build a highly profitable and enjoyable service business with a very high referral rate.

Where will your customers come from?

Caryard's - gold badges,
Jewellers - silver to gold,
Plumbers - gold taps & fixtures,
Builders - door handles.

Sporting trophies really stand out in 24 carat gold, how about a golden golf club? Plus hundreds of other opportunities.

With over 10 years experience in the design and supply of the world's leading portable plating machines, we can offer backup and support our operators in the field. This opportunity is definitely one to consider!!! Check out The Gold Club at
